

Every year, our sporting community eagerly awaits the start of the handball summer; and this time around, the wait has come to an end.

The European Handball Federation, together with Handball Federation of Romania, are pleased to present the 14th edition of the Women's 19 EHF EURO; and it is an event of firsts.

For the first time...

...the EHF takes the Women's 19 EHF EURO to Romania, and the tournament will be played in two cities in two (new) playing halls.

From 6 to 16 July 2023, the European Handball Federation and the W19 Organisation Committee will welcome the sixteen delegations to the Cities of Pitesti and Mioveni. With 56 matches on the schedule, we look forward to the performances of the teams. The playing halls of Pitesti Arena will play host to Groups A & B in the Preliminary Round, and Sala Sporturilor Mioveni will set the stage for Groups C & D.

It is now time for the players to step into the spotlight – each national team will present their next generation of top athletes. Competing in Group A, we welcome the teams of Croatia, Switzerland, Sweden, and Netherlands; in Group B, the teams of Germany, Romania, Portugal, and Iceland; in Group C, Hungary, Norway, France, and Serbia; and in Group D, Denmark, Montenegro, Czech Republic, and North Macedonia.

On behalf of the European Handball Federation and placing much emphasis on our long-standing and successful cooperation between our organisations, I would like to thank the Handball Federation of Romania and its Organising Committee for the engagement and the tremendous work put into the organisation of the 14th edition of the Women's 19 EHF EURO. To the sixteen national teams, I wish you an unforgettable experience!

Sporting regards,

Michael Wiederer
EHF President
